THE ASSOCIATION OF GEOHAZARD PROFESSIONALS invites you to join our group and share your experience. We influence the state of practice and elevate awareness of geohazards and geohazard solutions.

PURPOSE OF THE ORGANIZATION

The Association of Geohazard Professionals (AGHP) is a nonprofit association that supports the development of standards, specifications, and best practices concerning the design and implementation of geohazard-related technologies and products. Also, the Association supports and provides education to the geohazard community and those it serves.

GOALS OF THE ORGANIZATION

The Association is creating a stable of resources that will promote best practices in the geohazards field. The Association leadership, including its active committees, formulates high-altitude goals based on the needs of the geohazard community and the communities influenced by and benefiting from geohazard technologies.

COMMITTEES

All members are encouraged to join one or more of the committees listed below.

- Anchor Testing
- Education
- Marketing
- Post Support System
- Rope Access
- Standards and Specifications

AGHP PHOTO CONTEST NOW OPEN!

The 2016 **Association of Geohazard Professionals (AGHP) Photo Contest** has opened. This annual contest is open to members of the AGHP, attendees of the **Highway Geology Symposium (HGS)**, and all industry-related participants. The contest runs through 23 June 2016.

Take advantage of this great opportunity to demonstrate geohazard materials, technologies, and events! All entries should include a photo title, description, and photo credit. First, second, and third place winners will be announced in July at the HGS awards banquet in Colorado Springs, Colorado.

Photos will be used to promote the exemplary work of the geohazards community, raise awareness of the importance of your expertise, and add to the beneficial dialogue between geohazards professionals and the larger engineering community. Credit to the winning submissions will be given.

Promote your work. Promote your field.

Theme: Proper demonstration of geohazard materials, technologies, or events

Submission Deadline: 23 June 2016

Submit photos here:
